Intro Hello! My name is and I am calling from the Universidad Católica and on behalf of the International Organization for Migration (IOM). The IOM is carrying out a research on migrants' integration in Peru and we would like to learn about your experience as a migrant in Peru, your daily life and your perspectives in the country. You were recently in contact with the IOM, which is how we received your number.

We would like to ask you a few questions about your experience in Peru. This survey is different from the one you just did with IOM for possible assistance. If possible, we would like to interview you today and call you again in a few weeks to know more about you.

Participation in the survey is entirely voluntary. Whether or not you decide to participate will not affect your participation in any IOM programs or assistance. The survey will take around 25 minutes. Would you have time to speak with me now?
